14 CFR Part 71

[Docket No. FAA-2020-0871; Airspace Docket No. 20-AGL-32]

RIN 2120-AA66

Amendment of Class D and Class E Airspace and Revocation of Class E Airspace;

Muskegon, MI

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule.

SUMMARY: This action amends the Class D and Class E airspace and revokes the Class E airspace designated as an extension to Class D and Class E surface areas at Muskegon County Airport, Muskegon, MI. This action is the result of an airspace review caused by the decommissioning of the Muskegon VHF omnidirectional range (VOR) navigation aid as part of the VOR Minimum Operational Network (MON) Program. The geographic coordinates of the airport are also being updated to coincide with the FAA's aeronautical database.

DATES: Effective 0901 UTC, April 22, 2021. The Director of the Federal Register approves this incorporation by reference action under Title 1 Code of Federal Regulations part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

SUPPLEMENTARY INFORMATION:

Authority for this Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it amends the Class D airspace, the Class E surface airspace, and the Class E airspace extending upward from 700 feet above the surface, and revokes the Class E airspace designated as an extension to Class D and Class E surface areas at Muskegon County Airport, Muskegon, MI, to support instrument flight rule operations at this airport.

History

The FAA published a notice of proposed rulemaking in the *Federal Register* (85 FR 67319; October 22, 2020) for Docket No. FAA-2020-0871 to amend the Class D and Class E airspace and revoke the Class E airspace designated as an extension to Class D and Class E surface areas at Muskegon County Airport, Muskegon, MI. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal to the FAA. No comments were received.

Class D and E airspace designations are published in paragraph 5000, 6002, 6004, and 6005, respectively, of FAA Order 7400.11E, dated July 21, 2020, and effective September 15,

2020, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document will be published subsequently in the Order.

Availability and Summary of Documents for Incorporation by Reference

This document amends FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the ADDRESSES section of this document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Rule

This amendment to Title 14 Code of Federal Regulations (14 CFR) part 71:

Amends the Class D airspace to within a 4.3-mile (increased from a 4.2-mile) radius of Muskegon County Airport, Muskegon, MI; updates the geographic coordinates of the airport to coincide with the FAA's aeronautical database; and replaces the outdated term "Airport/Facility Directory" with "Chart Supplement";

Amends the Class E surface area to within a 4.3-mile (increased from a 4.2-mile) radius of Muskegon County Airport; removes the extension as it is no longer required; and replaces the outdated term "Airport/Facility Directory" with "Chart Supplement";

Revokes the Class E airspace area designated as an extension to Class D and Class E surface areas at Muskegon County Airport as it is no longer required;

And amends the Class E airspace extending upward from 700 feet above the surface at Muskegon County Airport by removing the Muskegon VORTAC and associated extensions as they are no longer required; removes the extensions southeast and northwest of the airport as they are no longer required; and updates geographic coordinates of the airport to coincide with the FAA's aeronautical database.

This action is the result of an airspace review caused by the decommissioning of the Muskegon VOR, which provided navigation information for the instrument procedures at this airport, as part of the VOR MON Program.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

The FAA has determined that this action qualifies for categorical exclusion under the National Environmental Policy Act in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures," paragraph 5-6.5.a. This airspace action is not expected to cause any potentially significant environmental impacts, and no extraordinary circumstances exist that warrant preparation of an environmental assessment.
